This week we're loving... DermaQuest Dermalash

IF you've ever hankered after longer, thicker lashes without the use of fakes, then this is the product for you. Developed by DermaQuest, this nourishing lash treatment stimulates hair growth, which results in longer, thicker, fuller, and yes - even more youthful

looking lashes! And a little goes a long way, with just a tiny application required at the base of your lashes every night.

One tube, which costs £98, lasts for up to five months.
