ROUGE UNLIMITED

Finally a lip colour which goes on as intense and as vivid as it looks in its container. Shu Uemura has launched a lip colour that breaks boundaries in colour creation through new hybrid mineral pigment technology developed in Japan. 48 shades of lip colour that can be used alone or blended together to flatter every skintone and reveal every woman's unique beauty, all enhanced with an advanced formula which prevents lip dryness and promotes shine through the combination of nourishing waxes and oils. RUPALI KOTECHA TRIES AND TEST'S THE BEST IN BEAUTY THIS MONTH.

BAT THOSE LASHES!

Always wanted lashes you could flutter to have men fall at your feet? LVL is taking the beauty industry by storm with a new technique to add uplift and length to your lashes by straightening *not* curling them.

Eyes are shielded and lashes isolated before they are covered with a lifting balm and conditioning proteins. To ensure the optimum uptake of the balm the eyes are covered with pads, cling-film and a warm towel. After 15 minutes a lash volumising fix is applied and eyes are covered with pads for a further 5 minutes allowing the pH level of the lashes to stabilise, after which pads and lash shields are removed and lash re-vitalizer is applied to encourage growth and good conditioning. Treatments last for about 45 minutes and cost £69-£129, and the results last the lifetime of your lashes (8-12 weeks). So say goodbye to false lashes on your pillow in the morning, and say hello to fluttery wide-eyed appeal. LVL 44 (0) 845 644 3994

DERMAQUEST SKIN THERAPY

Sam Dhatt, a highly respected, award-winning cosmeceutical scientist brings us a comprehensive line of outstanding skincare products for professional and home treatments that are already a hit in the USA. The products are clinically formulated for age management, acne management and therapeutic care, and designed to be used in conjunction with professional treatments as well as stand alone skincare. If you are having treatments such as skin resurfacing, laser therapies for acne or hair removal, Dermaquest has a Skin Preparatory and Home Care formula for you. The Skin Preparation formulas provide the skin with optimum levels of hydration and healing and help to prepare the skin for professional treatments and the prescribed homecare products help ensure long term results. All products have highly active ingredients and are 100% plus more active than

those on the high street. Products contain key ingredients such as peptides which rejuvenate the skin by plumping and firming as well as completely natural ingredients such as licorice and pumpkin pulp.

Products include Lip Enhancers for a bee stung pout you can really see and a product that has been compared to liquid gold-the Peptide Mobilizer that prepares and mobilises skin to appear more youthful and radiant. Products range from £25 to £200 and are available in salons nationwide. www.dermaquestinc.com.
